## Environment

### German-Russian Week for young scientists

11. – 15. May 2009

## Programme

The East West Science Centre invites to the **German-Russian Week: Environment** organised for Hessian and Russian junior scientists, company and research representatives with excursions to Hessian environmental institutes and companies

11.05., Monday	Arrival Get together
12.05., Tuesday	Visit of ACHEMA – 29. International Exhibition- Congress on Chemical Engineering, Environmental Protection & Biotechnology Frankfurt
13.05., Wednesday	Excursion: Company visits in Southern and Middle Hesse (WaterTechnologies)
14.05., Thursday	Excursion: Company visits in Northern Hesse (Renewable Resources, Energy Efficiency)
15.05., Friday	Workshop: “Future environmental technologies“, Kassel
16.05., Saturday	Departure

## Goals

The **German-Russian Week: Environment** is part of the project “Hessen goes East – Marketing of Hessian Environmental Research and Technologies in RUSSIA”. The project communicates the research and technology site Hesse in Russia and strengthens the role of Hesse in the German-Russian cooperation in the range of environment.

The **German-Russian Week: Environment** addresses to Hessian and Russian junior scientists, company and research representatives from Russia and Germany.

The aim of the programme is to motivate Russian research and development institutes to cooperate with German institutes and companies in the field of basic research, applied science, the transfer of new technologies, and the marketing of research products.

The programme offers particularly the junior scientists from Russia and Hesse the possibility to present their research projects and to initiate bilateral contacts. In order to expand the contacts the East West Science Centre (OWWZ) organises additional project meetings for the partner teams. The excursion programme includes visits to relevant environmental companies and research institutes in Hesse.
